## Apologia's Mission

Our mission is to help homeschooling families learn, live, and defend the Christian faith.

## Why Choose Apologia?

For over 30 years, Apologia has equipped homeschool families with Christ-centered curriculum that inspires wonder, builds faith, and fosters a lifelong love of learning. With Apologia, your child's education is more than academics—it's an opportunity to see the wonder and awe of God's design in every subject.

Apologia is ...

- Written from a biblical worldview
- Encourages independent learning
- Designed to fit every learning style
- Engaging and hands-on, making learning come alive
- Simple to use for both students and parents

Homeschooling doesn't have to be overwhelming. Apologia's FREE Homeschool Bootcamp gives you practical, step-by-step video guidance for planning, tackling learning challenges, and navigating high school.

## Preschool & Elementary Science

### Inspire an Awe and Wonder of Creation

Apologia's award-winning science curriculum makes it easy to teach multiple students—from kindergarten through sixth grade—together with one engaging program. Rooted in a biblical worldview, each course is filled with hands-on experiments, colorful lessons, and captivating stories that spark curiosity about God's creation. Whether you're exploring the stars, studying the ocean depths, or discovering how plants grow, Apologia equips your family to learn, explore, and marvel—together.

## Hands-On Science Just Got Even Better

### Bring Science to Life With Vibrant, Engaging Activity Videos

Introduce your child to a whole new level of hands-on learning with Apologia's Elementary Science Activity Videos—a dynamic add-on to our award-winning science series. Led by our energetic and engaging instructor, Ezra, these videos transform every lesson into a vivid, memorable experience.

Perfect for visual and hands-on learners, each video breaks down new scientific concepts with clear explanations and exciting demonstrations. Ezra walks students through every experiment and activity in the textbook, step by step, helping them see how science works before they try it themselves.

Whether your child needs concepts illustrated visually, enjoys learning through movement, or simply thrives with an enthusiastic guide, these activity videos make science easier to understand—and a lot more fun.

Turn ordinary lessons into dynamic discoveries that spark curiosity, build confidence, and inspire a wonder and awe of God's creation.

## Elementary Math

# The Math Curriculum Parents Have Been Searching For

Apologia's Exploring Creation with Mathematics invites elementary students to discover the beauty and order of math through a hands-on, interactive approach. Designed to build a strong foundation, each lesson connects math concepts to real-life applications while pointing students to the Creator's perfect design. Like Apologia's award-winning science series, this curriculum is written from a biblical worldview and helps children see math as both practical and purposeful.

### Why Families Love It:

- Mastery-based learning with spiral review
- Engaging games, hands-on activities, and creative projects
- Easy, open-and-go format for parents

*"I've been searching for YEARS for the perfect math curriculum—something hands-on with short lessons and an easy-to-use teaching guide. Apologia knocked it out of the park with this one!"*

*- Christine, Homeschool Mom*

## Middle & High School Science

### Science That Sparks Curiosity through Hands-on Learning

Apologia's award-winning science curriculum inspires students to explore God's creation with curiosity and confidence. Written from a biblical worldview, each course equips students with a deep understanding of scientific concepts while encouraging critical thinking and wonder. Through engaging lessons, vivid illustrations, and meaningful hands-on experiments, Apologia brings science to life—helping students see the Creator's hand in every detail of the world around them.

## Self-Paced Courses

### Simplify Science with Apologia's Online, Self-Paced Courses

Apologia's Self-Paced Science Courses make homeschooling simpler, more engaging, and completely student-driven. Designed to support all learning styles, these online courses combine engaging video lessons, interactive experiments, and auto-graded assessments that give students confidence and independence. Rooted in a biblical worldview, each course encourages critical thinking and wonder while helping students see God's hand in every scientific discovery.

#### Self-Paced Science Courses

\$319

### Explore Great Literature at Your Own Pace

Apologia's Self-Paced Literature Unit Study Courses make reading and learning about literature engaging, interactive, and stress-free for homeschool families. Perfect for students from grades 6–9, each course combines guided reading, thought-provoking questions, and creative activities to deepen understanding and spark discussion. Rooted in a biblical worldview, these unit studies help students connect timeless stories to faith, life lessons, and character growth—encouraging both a love of reading and a thoughtful, God-centered perspective on the world.

## Learn God's Word Together

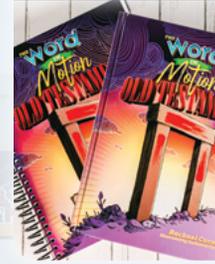

The Word in Motion takes students on an exciting, masterfully illustrated journey through the Bible, helping families see how each book fits into God's sovereign plan. Designed for grades K–8, this curriculum invites the whole family to learn, discuss, and grow in God's Word together—bringing Scripture to life in a way that's memorable, meaningful, and faith-building.

"It is wonderful to see this concept of a multi-sensory curriculum made available to teach the next generation the most important history of all - His Story! The Word in Motion belongs in every home."

- Nancy
