Syllabus

2024-2025

Description:

In this course, you will learn about God's amazing Creation! God is by nature a revealer of Himself that He might be known. One of the ways that He has revealed Himself is through His Creation. So, it is our desire in this course that in addition to all the technical aspects of science that we will learn, each student will encounter the glory of our Creator in His Creation as you also learn the study skills necessary for high school and college.

- Recorded students, please email me your questions. I will not collect homework. Parents will check their students' notebooks for completion
