

Errata

Where can I find corrections for your books - Errata?

Currently all of our errata files are posted in the individual course of our Book Extras section on our website: www.Apologia.com/bookextras. Eventually these files will be posted in the FAQ Knowledge Base. They will be added on a rolling basis so check back periodically.

To find the correct printing of your textbook, you will need to look at the copyright page. The printing number will be listed one of two ways: "1st printing, February 2019" or "10 9 8 7 6 5 4 3 2 1." If your textbook resembles the latter, the last number listed is your textbook's printing number.
